

VITO 90

Spec-Sheet

VITO 90 - Filtration system for coolant lubricants, oils and watery solutions

VITO 90 is suitable for all industrial basins. Filtration of large volumes of coolant lubricants.
Filtration power up to 90 l / 198 lbs.

Functionality:

VITO cleans and ventilates your coolant lubricant to ensure its optimum quality. The VITO is placed directly into the basin. The vortex created by the machine removes chips and microparticles up to 5 µm from your fluid and keeps it ventilated to prevent the growth of fungus & bacteria. Due to the extended service life and the decreased tool wear, you achieve a reduction of your operating costs as well as a consistent quality of your workpieces.

The VITO 90 saves coolant lubricant, labour, stock ground and transport costs.

Big savings:

- less tool wear
- less personnel costs
- less transport costs
- less disposal costs
- fast amortisation

Constant quality:

- ...of your coolant lubricant
- ...of your workpieces

Easy handling:

- fast pressure filtration
- low cleaning effort
- automatic pulse filtration
- configurable

Configuration menu

Adapt VITO to your personal needs
(Wi-Fi capable device necessary)
